Rector's Message

The future of a nation is shaped in its classrooms. The future of India beckons us to launch out into new and creative ventures so that the future generations are trained and equipped to face the challenges and utilize the opportunities that a bright and promising future holds for them.

One such new and creative venture that this premier and prestigious institution has taken in hand is St Aloysius Institute of Education, offering a degree of Bachelor of Education with the possibility of blossoming into an institution of higher learning in not too distant a future offering a Master's Degree in Education and facilitating research leading to a doctoral programme.

The B.Ed Programme started in the year 2006 and from these past years, it is preparing highly competent, deeply motivated, greatly compassionate and strongly committed educators for the secondary stage of school education where the Budding youth are at the most impressionable and malleable stage of their growth and hence are Both vulnerable to damaging influences and deceptive to healthy growth. It is our endeavour to place at the service of our young people a band of trained, skilled, sensitive, concerned and committed teachers who will make a real difference in the lives of our young people, moulding their characters, shaping their personalities, inculcating values, helping them set their goals and above all becoming role models and harbingers of hope.

St Aloysius Institute of Education is equipped with spacious classrooms, computer lab, good Library, Laboratory among other facilities. Apart from curricular subjects, the Institute places at the disposal of the students a wide variety of co-curricular and extracurricular activities so as to draw out the Best from each student, enabling everyone to grow to the fullness of each one's and to become the best possible teacher that each one is able to become.

The College Crest

To keep before you always the aims of your education in this college and the heights to which you must aspire, you have the Crest and the Motto of this Institution.

On the right half of the shield-like Crest you have three soaring eagles, reminding you not to be satisfied with mediocrity but aim truly high in intellectual, physical and spiritual development; you have also a jumping Lion symbolic of the vigour and boldness you must cultivate.

To the left half of the Crest, you have the sun shining over the West Coast. Every student who passes through the portals of this Institution must be like the sun, illumining and contributing to the growth of the people in this land.

The College Motto

When you look back at the College Crest, in the centre of the rising sun, there are the letters IMS. This is the abbreviation of the name of Jesus (which in Greek is written as IHSUS). That name is symbolic of the deepest faith in God and the deepest commitment to humanity and readiness to sacrifice everything, even one's life for others.

The Motto of this Institution is "Lucet et Ardet". These Latin words which mean "Shine to Enkindle" refer to the mind and heart. It is the deep desire of this Alma Mater to present to our nation and to the world, men and women with minds bright with knowledge and creativity and hearts burning with genuine love and concern for others.

May your life measure up to the expectation of this Motto.
